------	-----	------	-------	------	-----	-----	-------	------	-----	-----	-------	------	-----	-----	-------

Section 1, 2, 3, 5 and 6 above must be completed before student teaching. These courses/competencies may be taken after student teaching but before a Clear Ag. Specialist Credential can be issued. Each candidate is strongly encouraged to complete all coursework prior to student teaching. Each candidate must complete at least 45 units beyond the baccalaureate to qualify for the Preliminary Single Subject and Clear Ag. Specialist Credentials. Each candidate is strongly encouraged to consult an Agricultural Education faculty member for advice and counsel. If you are within 12 units of graduation and have taken any courses not needed for graduation (most specifically in 4, 5, & 6, above), you may petition a maximum of nine units to count as graduate units and they will count as part of your 45 post baccalaureate units.
